

# ADVANCED CIRCUITS™ TO EXHIBIT AT THE WORLD'S LARGEST MEDTECH EVENT

**FOR IMMEDIATE RELEASE - JANUARY 26, 2017**

AURORA, CO – Advanced Circuits™, North America's third largest printed circuit board (PCB) manufacturer, will exhibit at the **MD&M West tradeshow - booth #2075**. The company will showcase its portfolio of PCB manufacturing solutions for the unique requirements of medical applications. Attendees can learn about Advanced Circuits' capabilities, expedited turn-times, and in-house assembly services.

The event will be held in Anaheim, California on February 7<sup>th</sup> – 9<sup>th</sup>, 2017 at the Anaheim Convention Center, bringing together the world's leading medtech suppliers and over 20,000 engineers and decision makers from the industry.

## **About Advanced Circuits™**

Advanced Circuits is the leading printed circuit board manufacturer with the industry's largest active customer database and best on-time shipping record. Three U.S. based manufacturing facilities enable Advanced Circuits to specialize in both small quantity prototype and high-volume PCB production with expedited lead-times such as same day and weekend turns.

PCB Capabilities include multilayer boards up to 40 layers, oversized boards, via-in-pad, sequential lamination, laser-drilled microvias, heavy copper up to 20 oz., and others along with a vast selection of advanced materials. Quality systems and certifications include IPC 6012 CLASS 3/3A, AS9100, ISO 9001:2008, MIL-PRF-31032, MIL-PRF-55110, and ITAR registered.
