Innovative Medical Packaging and Enclosures by InterTrade Industries Featured at MDM West

The Southern California-based full service custom thermoformer InterTrade Industries will show medtech attendees how to turn their concepts into reality.

ANAHEIM, Calif., January 11, 2017 – World class thermoformer InterTrade Industries will showcase medical packaging and enclosures at the world's largest annual medtech event, MDM West. InterTrade Industries works with the medtech industry to turn concepts into reality by utilizing innovative solutions.

"The team at InterTrade Industries serves the medical device industry with solutions ranging from functional sterile plastic packaging to sturdy, reliable medical device enclosures," stated Business Development Manager Cheryl Lapsys. "We encourage attendees of MDM West to visit us in Booth #2086 so that we can discuss their current and future projects."

InterTrade Industries' team of engineers and manufacturing experts have spent decades developing innovative plastic designs to solve ever-evolving challenges for the medtech industry. Their creative designs and materials often result in significant costs savings for medical device customers.

Sales Manager Marla Quinn added, "As a world class thermoformer with more than 40 years experience, our design experts conceptualize and breathe life into a client's idea."

Lapsys and Quinn work personally with every client in order to ensure their needs are met from design to production to delivery. All products are made in-house at the company's California facility. Thin gauge thermoforming products include trays, clamshells, lids, covers and other aspects of packaging while heavy gauge thermoforming produces medical device enclosures and other sturdier products.

InterTrade's capabilities include:

- Custom Vacuum Forming
- Thin and Heavy Gauge Plastics
- Drape Forming
- Polyurethane Foam Molding
- Die Cutting
- Assembly
- In-House Tooling and Rapid Prototypes

From February 7th to February 9th, 2017, the company's medical packaging and enclosures capabilities will be showcased in Booth #2086 during MDM West at the Anaheim Convention Center in Anaheim, California.
